Finding Tests and Measures in PsycInfo

1. While on the WUSM internet network, follow this link to the PsycInfo database: [Link]

2. On the top of the screen you should see a blue ribbon. Click on the “More” drop down menu and then click on “Indexes”

3. Click on the drop-down menu next to “Browse and Index.” Select “Tests and Measures.”

4. In the “Browse for” box enter the title or first words of the test you are looking for. Then click the “Browse” button.

5. Select the tests you’re interested in from the list (the list will vary in length depending on your search). Next, click on the “Add” button. This will add the test/measure to the PsycInfo search.

6. Go to the top of the screen and click on the green “Search” button. On the next screen you will find results that contain the tests and measures you included in your search.
